**EPHYLA**  
Natural Active Design

From the knowledge of  
the Muscadet  
vintners

Biological  
process:  
fermentation

Vasodilatator

Antioxidant

Anti-aging

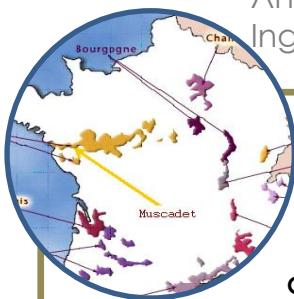

Sirtuins  
stimulation

- Highly improved Sirtuins stimulation activity compared to the reference molecule, the resveratrol
- Remarkable efficient purification
- Instantly boost skin radiance

**Vitismuslie®**

Anti-aging - Vasodilatator – Sirtuins Stimulation activity Active Ingredient

## Identity Card

**Function:** Anti-aging, antioxidant, vasodilatator, sirtuins stimulation activy

**INCI Name:** Glycerin & Vitis vinifera fruit extract

**Renewable botanical origin:** Grape « cépage melon » (grape variety)

**Geographic origin:** France

**Color:** Dark

**Odor:** Characteristic

**Available forms:** Liquid

## In vitro analysis

### Anti-oxidant effect:

+ 92% oxydation inhibition

### Vasodilatator effect:

Decrease of 63,5% of endothelin production

### Activated anti aging metabolism:

+ 19% sirtuin stimulating activity

Sun protection (sunscreens)

Emulsion with anti-aging activity

Decontaminating

Congestion deep dark circles, dull skin blotchy etc

Stimulate natural red lips

Massage products or muscle warming

Short-term anti-aging

## Uses
